Back-End: Node.js, Express.js, JWT (Auth Security)
Language: Java
DataBase: MySQL, MongoDB
Deployment: Netlify, GitHub Pages
Tools: GitHub, Git, VS Code, WordPress, Eclipse, IntelliJ IDEA, Photoshop, Figma

Projects

Excess Food Redistribution Platform | *MERN Stack* **dharani2812.github.io/Food-App-Frontend/**

- Developed a full-stack web application to facilitate the redistribution of excess food from donors to those in need..
- Built using React JS, Node.js, Express.js, and MongoDB to ensure scalable, efficient, and real-time functionality.
- Features include food listing, request system, donor notifications via email, and secure user authentication.
- Hosted on Render and GitHub Pages with a custom domain for seamless access and deployment.

Personal Portfolio | *React JS* **dharanidharan.tech**

- Designed and developed a responsive personal portfolio website to showcase my web development skills, projects, and experience.
- Built using React JS emphasizing clean UI and user-friendly navigation.
- Demonstrated front-end development proficiency through dynamic design and mobile responsiveness.
- Hosted on GitHub Pages with a custom domain for professional presentation and accessibility.

Educa . | *HTML, CSS, JavaScript* **onlineeducationsite.netlify.app**

- Designed and developed the front-end interface of Educa, a concept UI for an online education platform.
- Built using HTML, CSS, and JavaScript to demonstrate responsive design and user-focused layout.
- Focused on clean structure, intuitive navigation, and engaging UI elements to simulate a real learning platform.
